

Tengizchevroil Fact Sheet

3Q 2021

History and Ownership

- Tengiz, the world's deepest producing super giant oil field, was discovered in 1979.
- The Tengizchevroil (TCO) partnership was formed on April 6, 1993, between the Republic of Kazakhstan and Chevron.
- Current partners are Chevron, 50 percent; KazMunayGas, 20 percent; ExxonMobil Kazakhstan Ventures Inc., 25 percent; LukArco B.V., 5 percent.

Production and Reserves

- Estimated oil in place in the Tengiz field is 3.2 billion metric tonnes (25.5 billion barrels) with 200 million metric tonnes (1.6 billion barrels) in the Korolev field.
- Total recoverable crude oil in the Tengiz and Korolev fields is estimated to be 890 million to 1.37 billion metric tonnes (7.1 to 10.9 billion barrels).
- The areal extent of the Tengiz reservoir is large, measuring 20 kilometers (12 miles) by 21 kilometers (13 miles).
- TCO completed its Sour Gas Injection and Second-Generation Plant (SGI/SGP) expansion project in 2008, which brought daily production capacity to approximately 75 thousand metric tonnes per day (600 thousand barrels) of crude oil and 22 million cubic meters per day (750 mmscf) of natural gas.
- Crude production in the first nine months of 2021 was 18.9 million metric tonnes (151 million barrels).

Health, Safety and the Environment

- TCO has invested about \$3.14 billion since 2000 in environmental protection activities.
- Since 2000 total air emissions generated per ton of oil produced have decreased by 71 percent.
- TCO's gas utilization rate in the first nine months of 2021 was 98.8 percent.
- Total TCO water reuse rate in 3Q 2021 was 46 percent. TCO continues supporting water conservation efforts by recycling, as well as treating and reusing water for industrial purposes.
- TCO sends more than 35 types of waste for recycling. In the end of 3Q of 2021, TCO waste reuse/recycling rate was 49 percent.

Product Sales

- In the first nine months of 2021, TCO sold over 1.07 million metric tonnes of LPG, 5.1 billion cubic meters of sales gas and over 1.9 million tonnes of sulfur.

Benefits to Kazakhstan

- From 1993 through 3Q 2021, TCO made direct financial payments of over \$158 billion to Kazakhstani entities, including Kazakhstani employees' salaries, purchases of Kazakhstani goods and services, tariffs and fees paid to state-owned companies, profit distributions to the Kazakhstani shareholder and taxes and royalties paid to the government.
- In the first nine months of 2021, direct payments to the Republic of Kazakhstan totaled more than \$5.9 billion.
- In the first nine months of 2021, TCO spent \$2.7 billion on Kazakhstani goods and services, including \$1.8 billion for FGP-WPMP (Future Growth Project - Wellhead Pressure Management Project).
- TCO has invested more than \$39.3 billion on Kazakhstani goods and services since 1993.

Workforce Development

- Kazakhstani citizens hold 87.6 percent of positions in TCO's Base Business and FGP-WPMP. Excluding the FGP-WPMP workforce, Kazakhstani citizens hold 93.5 percent of TCO positions compared to 50 percent in 1993.
- Kazakhstani managers and supervisors represent 77.2 percent of the TCO managerial workforce in Base Business and FGP-WPMP. Excluding the FGP-WPMP, Kazakhstani managers and supervisors hold 87.2 percent.
- Ongoing training and development programs exist to support the advancement of employees to positions of increasing responsibility.

Tengizchevroil Fact Sheet

3Q 2021

Community Outreach

- Since 1993, TCO has invested over \$2.2 billion to fund social projects and programs in Atyrau Oblast for the community and employees.
- In 2021, TCO has budgeted \$30 million for Egilik social infrastructure program, the majority of which will be spent on construction of kindergartens, schools and other social facilities in Atyrau Oblast.
- In 2021, TCO has allocated \$1.6 million as part of its Community Investment Program on projects to help improve the quality of health and education and to develop social entrepreneurship both in Atyrau Oblast and Borankul Village (Mangistau Oblast).
- Since the beginning of the pandemic, TCO has allocated approximately \$18.3 million (7.7 billion tenge) to support local communities in the ongoing fight against COVID-19, including purchasing medical equipment and supplies for Atyrau Oblast.

Future Growth Project - Wellhead Pressure Management Project

General Information

- In 2016, TCO Partners announced approval for the final investment decision of the Future Growth Project - Wellhead Pressure Management Project (FGP-WPMP), the next major expansion of the Tengiz oil field.
- FGP will expand production of crude oil by approximately 12 million tonnes per year or 260 thousand barrels per day to about 39 million tonnes per year or 850 thousand barrels per day.
- WPMP will keep the existing Tengiz plants full by lowering the flowing pressure at the wellhead and then boosting the pressure to the inlet requirements of the six existing processing trains.

Kazakhstani Content

- Since the commencement of FGP-WPMP, TCO has spent over \$12.6 billion to purchase Kazakhstani goods and services.

Project Progress

- With the project now 86% complete, all production wells have been drilled and completed, materials and equipment are on site, module restacking completed and all Utilities modules integration complete.
- FGP-WPMP is a project of national importance and is helping to create a legacy of a trained and skilled local workforce, technology transfer through partnerships with international companies, and upgraded infrastructure in the region.
